Questionnaire

Subject of the questionnaire

- Qualification of contracting authorities
- Official lists of approved economic operators and certification by certification bodies

Results

- very low response – Greece and Austria only
- no actual evaluation possible

Qualification of contracting authorities

Slovakia

- specific qualifications (training, examination by PP Office) required by PP Act
- employees of contracting authorities or independent advisors
- 6500 persons

Other countries

- only voluntary training programs etc.

Conclusion

- better training of people dealing with PP probably considered necessary in all countries
- however, creation of obligatory scheme is difficult

Qualification lists and certification schemes

Greece

- Register of Construction Companies + Diploma Update
- Register of Designers
- Register of Suppliers

Austria

- List of ANKÖ (Auftragnehmerkataster Österreich)

Czech republic

- List of Approved Economic Operators
- Systems of Certified Contractors
- since 2004

Qualification lists and certification schemes

Slovakia

- List of entrepreneurs (zoznam podnikateľov) (PP Office)

Germany

- Association for the Prequalification of Construction Companies

Denmark

- Construction Benchmarking System

Qualification lists and certification schemes

Conclusions

- different systems exist in many countries
- positive experience – simplification of prequalification

Issues for discussion

- subject maintaining the list/scheme (state, associations, certification bodies)
- obligatory/voluntary character
- scope of the list/scheme
- classification of contractors

Thank you for your attention
